Professional Summary

AI strategist focused in marketing, education, growth and project management, with 10+ years of B2B enterprise experience. Blending a strong foundational knowledge with technical strategy, and advanced expertise in AI operations / enablement. In my recent roles, I architected autonomous agentic workflows and upskilled marketing teams to increase efficiency. As an analytical builder and problem solver, my strengths span from design and development, to multi-agent system orchestration. My experience brings the dual viewpoint of day-to-day marketing and the technical ability to build AI solutions that drive both revenue growth and internal operational excellence.

Skills

- **AI Enablement & Automation:** AI Agent Architectures, Workflow Automation (Agentic Workflows & AI-native Architecture) from Legacy Processes, Custom AI App/Tool Development, AI Training & Upskilling, AI Strategy (Adoption & Governance), LLM usage expertise (Gemini, ChatGPT, Claude/Anthropic)
- **Digital Marketing & Analytics:** Analytics (Google / Adobe), Digital B2B Marketing / Campaigns
- **Development & Web:** Web Design,, Marketing Operations, User Experience (UX)
- **Leadership & Operations:** Management, Quality Management, Training & Development, Process Development, Operations Management, Project Management, Technical Writing

Work Experience

Senior AI Marketing Operations and Enablement

Cloudflare - San Francisco, CA

May 2025 to May 2026

Led an AI first strategy across the Cloudflare marketing organization to transition teams from basic AI usage to deploying fully autonomous agentic workflows. Strategist, leader, builder and trainer in developing custom AI tools / workflows that eliminated manual processes and empowered staff to focus on complex, high value marketing initiatives.

- Lead Brand Marketing and Digital Marketing organization's AI strategy: governance, methodology, security and best practices. Developed change management initiatives across multiple cross functional teams to dissect and improve legacy marketing processes on a large-scale with AI
- Architected and deployed advanced agentic AI workflows to automate content generation, web page creation, and marketing operations
- Trained team members across Brand, Design, Content, and Web Production to build and manage their own AI agents and identified "power users" to extend my reach.
- Developed reusable internal tools and custom AI applications that optimized team efficiency and eliminated repetitive manual tasks
- Upskilled teams from foundational AI prompting to agent orchestrations and autonomous flows
- Increased operational bandwidth by replacing grunt work with self executing architectures and AI agent workflows across marketing
- Led cross team AI enablement sessions for global marketing (DG, PPC, Brand, MOPs, PMM) to train and teach AI tools, usage theory, and strategy
